User Guide – Running Flickr slideshows and YouTube videos in full-screen mode

So you've found some great pictures or a video of your favourite artist on OpenMicJam.co.uk, but your eyesight's not what it used to be. Worry not, because Flickr slideshows and YouTube videos can both be shown in full-screen mode. Here's how.

Running Flickr Slideshows In Full-screen Mode

---

1. Select a slideshow from any of the pages in www.openmicjam.co.uk that show media files. Select by clicking on the thumbnail or the link provided

---

2. The Showmedia page will be displayed with the slideshow ready to run. Click the start button to start the slideshow
